

# Natural meat by-products for tasty, safe pet food

# Pet food solutions for satisfied pets and happy owners

## A growing market worldwide

All across the world, people share a special bond with their pets. So it's only natural they want the very best for them – and that includes safe, tasty food. The pet food industry – especially for cats and dogs – is growing worldwide.

European consumers alone spent around 21 billion EUR on pet food in 2018 – with an expanding range of healthy options and premium brands to choose from.<sup>1</sup>

### Stand out with first-class, safe ingredients

With this huge opportunity comes rising competition: how can your pet foods become attention grabbers, known for keeping pets satisfied and owners happy? With our safe and finest ingredients of natural origin that will take your pet food to the next level. Our premium meat by-products are ready to slot into your production line and enhance the taste, bite, and nutritional value of your pet food, all at a competitive rate. Carefully sourced, fully traceable, and efficiently

produced, our ingredients are of the highest quality. With CTH, you have a producer and supplier you can trust.

### A complete portfolio, including blends

<b>Other species</b>	On request deliverable			

### Bio-functional Ingredients

Our bio-functional ingredients support the wellbeing of cats and dogs by improving gut health and reducing the symptoms of allergies and joint disorders. Most are also hypo-allergenic.

### Techno-functional ingredients

Designed to improve the texture of your pet food formula, our techno-functional ingredients provide advanced binding and emulsifying.

### Nutritional ingredients

Our nutritional ingredients of animal origin are carefully sourced, have the highest digestibility rates, and are the most biologically appropriate for carnivorous pets, like cats and dogs.

### Ready for your production line

At CTH, we don't just offer high-quality ingredients, but turnkey solutions controlled from the source till it's yours and ready to fit straight into your production line. With over 50 years of experience, we can ensure a consistent supply of fresh ingredients free from foreign material, delivered exactly how, where and when you need them. With CTH, you can keep pets happy, owners satisfied, and your business healthy.

Solutions that are irresistible to pets, owners and manufacturers. Our complete portfolio of fats, proteins, and innovative functional ingredients for pet food manufacturing will help you formulate high-quality, irresistible products.

- Premium meat by-products of natural origin
- Great taste, bite and freshness
- High nutritional value, profiled on spec
- Safe, clean, and traceable
- Outstanding functional properties and turnkey solutions for optimized formulation and production
- Guaranteed free from foreign material

products, our supply chain is fully equipped to meet your needs. Different blends of organs and highly specific mixes are also available, on request.

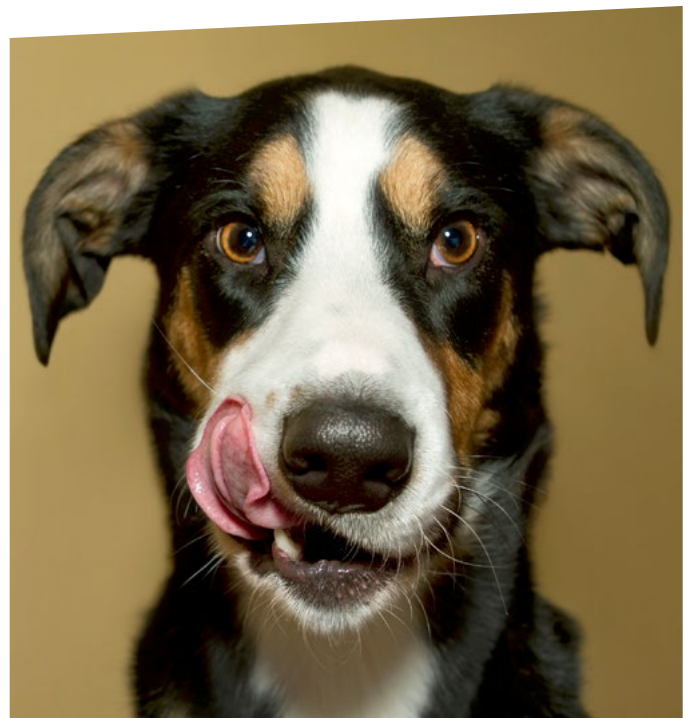

### Perfect for cats and dogs

As cats and dogs are carnivores, nutritional ingredients of animal origin, like our meat by-products, offer them the perfect diet. Highly digestible and biologically appropriate, they are the ideal choice for your cat or dog food product.

- Complete portfolio of fats, proteins, and innovative functional ingredients
- According to your specifications fresh or frozen
- Whole, ground or minced, pre-mixed blends
- Mixed or separated species, bovine, porcine, poultry and other products
- Carefully sourced, selected, and processed

### Fats, proteins and innovative functional ingredients

Together with our sister company Sonac, we can offer ingredients with superior nutritional, bio-, and techno-functionalities. Sonac is a world-leading producer of high-quality, reliable ingredients.

## Looking after our world

Utilizing animal by-products is a sustainable activity in and of itself. This means that teaming up with CTH will automatically improve your company's sustainability performance. Beyond this, we are committed to protecting the environment, for example, by adopting sustainable production methods, and continually seeking new ways to manage resources with respect and wisdom.

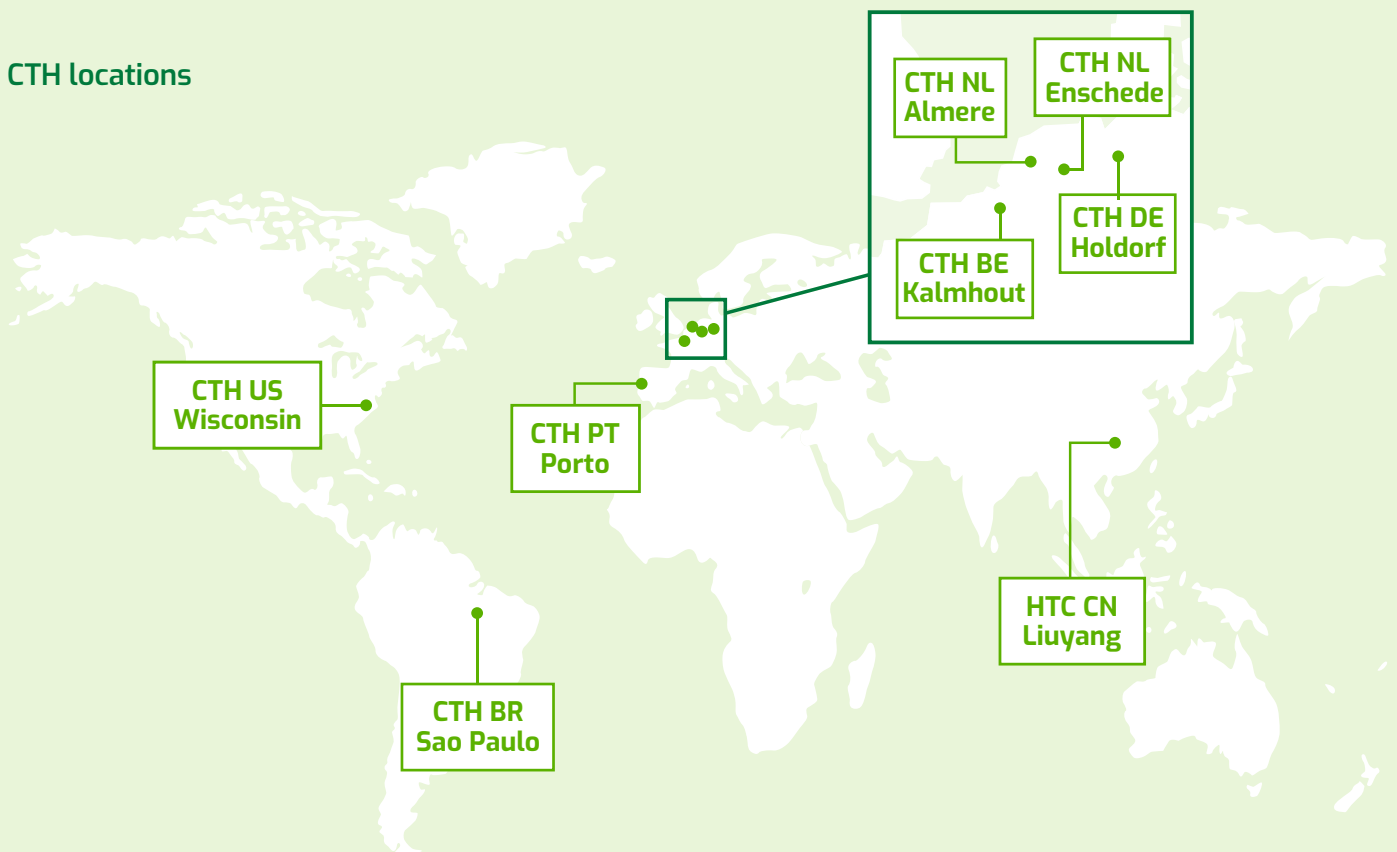

## A partner you can trust

Throughout our history, we have come to understand the importance of trust. From farmer to producer and supplier to consumer, trust is a necessary part of our business. To us, it means providing you with safe, consistent, high-quality products, delivered quickly and efficiently – and making sure that with CTH you have a robust, reliable partner.

## Part of Darling Ingredients

Founded in 1968 in Amsterdam, the Netherlands, CTH in 2014 became a part of Darling Ingredients, a global leader in creating value from both edible and inedible organic residuals into innovative, sustainable solutions. The natural ingredients produced by Darling Ingredients find uses in a wide variety of markets – from food, feed, and fuel to fertilizers, technical applications, pharmaceuticals, and health and beauty concepts.
