Q: What is your favorite part of your job?

A: I love helping people. If someone has a question, I like being able to solve their problem or finish the task for them. We are also all really close here at the plant, so I look forward to coming to work every day. My managers are always encouraging me to be the best I can be. They give me the tools to be successful. Our management is really in tune with us. If your management is good, the rest flows very easy.

Q: What have you learned from working here?

A: I had no idea what DAR PRO was or what we did before working here. I didn't know that people recycle used cooking oil or clean out grease traps. Now every time I go to a restaurant, I think about it and wonder about their grease trap. It's nice to have that knowledge now. I learn so much every day.

Q: What do you like to do outside of work, and what is your work-life balance like?

A: I love spending time with my daughter. She is funny, and she is just starting to talk so we have little conversations. I like to go the park with her and take her places. Being here has really made me appreciate things like that. My work life balance is easy to maintain, but my coworkers are also awesome. I see it all as a blessing.

Q: What is your favorite fried food?

A: Bloomin' Onions from Outback
