

- EnviroFlight works with the Black Soldier Fly to produce sustainable insect protein.
- The Black Soldier Fly does not have a mouth or stinger, making them harmless.
- EnviroFlight opened the first commercial insect protein plant in the U.S.
- Dried Black Soldier Fly Larvae produce 1-2 MM lbs. of protein per acre of land annually.
- EnviroProducts™ are used as animal feed ingredients and natural fertilizers.
- EnviroFlight is a brand of Darling Ingredients Inc.
