

Mucosa sourcing with full circle confidence

The service partner to process mucosa for high-quality, fully traceable crude porcine heparin

- Maximize mucosa volume and quality with our servicing support and know-how embedded within your processes.
- Guaranteed production continuity with our reliable equipment including maintenance and ensured availability of critical spare parts.
- Exceeding standards with our full-service collection of the mucosa by our trained staff using state-of-the-art equipment

As a leading expert on the market of crude porcine heparin is Hepac committed to sourcing the highest quality porcine mucosa of the natural origin. With us as your partner, you benefit from our expertise, comprehensive know-how, and guidance, reliable and efficient collecting services.

As we understand each other's needs about value-adding partnership and collecting the best mucosa for the market. It is our drive as trusted go-to-partner to service the industry by sourcing mucosa responsibly and compliant with all the strict regulatory requirements.

Services

Pharma

We are a trusted supplier to a wide range of customers in the pharma industry. We carefully source all the raw materials we use, applying the utmost care to meet and exceed industry standards and make our processes sustainable.

Sustainability

We service the slaughtering industry to manage their waste stream in an ecologically and economically viable way, by sourcing an essential ingredient for the pharma industry, instead of treating it as a waste product.

Process

Offering a unique and efficient process: collecting the mucosa with reliable equipment made available by us, for processing threads and stabilization, resulting in a maximum yield on the mucosa.

Equipment

State-of-the-art equipment including maintenance and ensured availability of critical spare parts.

About Hepac: Hepac is a producer of crude porcine heparin. Excellent access to high-quality European mucosa, reliable production processes and stringent quality control make Hepac a trusted partner for international pharma customers. Hepac is part of Darling Ingredients International. Hepac is registered with the Dutch Competent Authorities under register number 7048 API.
