Treat symptomatically.

## 5. Fire-Fighting Measures

- Flammable Properties:** Material may burn in a fire.  
Concentrated dust in an enclosed space can pose an explosive threat.
- Extinguishing Media:** Use water spray, dry chemical, carbon dioxide or suitable extinguishing foam for Class A or B fires.
- Specific Hazards Arising from Product Fire:** Combustion may produce CO<sub>2</sub> and other decomposition products in the case of incomplete combustion.
- Firefighting Equipment and Instructions:** Evacuate area and fight fire from a safe distance.  
Use water to spray to cool adjacent structures and to protect personnel. Stay away from storage tank ends. Withdraw immediately in case of rising sound from venting safety device or any discoloration of storage tank due to fire.  
Firefighters must wear NIOSH approved positive pressure breathing apparatus (SCBA) with full face mask and full protective equipment.

## 6. Accidental Release Measures

- Environmental Precautions:** Dry clean-up by sweeping and/or scooping.
- Waste Disposal Method:** Totally biodegradable. Dispose of recovered materials per local state and federal requirements.  
Keep dry to avoid biological decomposition.

## 7. Handling and Storage

- Handling:** Good personal hygiene practices such as properly handling contaminated clothing, using wash facilities before entering public areas and restricting eating, drinking and smoking to designated areas are essential for preventing personal chemical contamination. Do not breath dust. Avoid contact with skin or eyes.
- Precautions to be Taken In Handling and Storing:** Store in well-ventilated area away from heat, sources of ignition and incompatibles.  
Empty containers may contain material residue. Do not reuse without adequate precautions.  
Do not eat, drink or smoke in areas of use or storage.
