QBOOST BEEF HYDRO-B

QBoost Beef Hydro-B is a hydrolysed bovine collagen protein that contains a high level of protein and no fat. It can be used to increase the protein content in meat products and contributes to an improved cooking and slicing yield in various meat products.

KEY BENEFITS

Beef Hydro-B consists of 90% beef protein. It is a perfectly soluble powder, has a neutral color and a mild meaty flavor and smell. It has dust-free behavior which makes it easy to use in a wide range of applications, bringing stabilizing and fining properties. In addition, as a food ingredient it is free of allergens, GMO and E-numbers and can be used for all kind of meat and savory applications.

FACTS & FIGURES

Proteins	90%
Fat	0%
Appearance	Creme/white powder
Dosage	1-3%

APPLICATIONS

QBoost Beef Hydro-B is a protein source used as a bulking agent in a variety of foods. It offers excellent properties, such as high solubility, high protein content, a good amino acid profile, a positive effect on cooking and slicing yield, and a meaty flavor and taste. It can be added to injection brines or to the meat during tumbling processes or during meat dough preparations in emulsified and comminuted products. This protein is suitable for use in combination with other protein ingredients.

QBoost Beef Hydro-B can be added as an ingredient for the production of the following products:

- Whole muscle meat
- Reformed meat products
- Emulsified meat products
- Savory sauces
- Savory foods

LET'S SOLVE YOUR MEAT PUZZLE

Sonac is a leading manufacturer of reliable ingredients of animal origin. With an active R&D program, reliable processes and sustainable end products, we are continuously expanding our innovative portfolio to suit market needs.
