Q: What do you like most about your job?

A: One of my favorite things has been the fact that my coworkers and I work together to solve problems for our customers. It's rewarding! Coworkers can make or break your experience in any job, and my coworkers do a great job!

Q: What is your favorite part about working for DAR PRO?

A: I have two favorite things! I love the sustainability aspect of things and it feels good to know that we are making a difference. The other thing is that I love helping customers. I always do my best to help them, but if I can't do it myself, I'll get my customer to someone who can help them with their issue.

Q: If you had to choose three words to describe yourself, what would those words be?

A: I think I would choose kind, self-motivated, and ambitious!

Q: How would you describe what kind of worker you are?

A: I have two sides to the kind of worker I am. I like to make things as interesting and fun as possible - but I'm also detail oriented and keep a detailed to-do list.

Q: What do you like to do outside of work?

A: I have a bit of a side hustle - I make balloon decorations! When I'm not doing that, I like to hang out with my family.

Q: What is your favorite fried food?

A: Definitely the Holy Mac from Pluckers Wing Bar!
